Wheeler is a newly-imagined neighborhood in downtown Oklahoma City. Designed through a community charrette in the summer of 2014, Wheeler is first to expand the modern development footprint to the south bank of the Oklahoma River. Its layout encourages walking or bicycling to school, work, dining, the Ferris wheel and beyond.

From tiny houses to townhomes, Wheeler features a range of for-sale and for-rent housing for pioneering families that want the convenience and quality of a newly constructed home connected to the amenities and offerings of Oklahoma City’s dynamic urban core.
